INNOVATIVE POOL EQUIPMENT

Having started his career as a pool service tech for ten years before becoming a pool builder, the founder of Blue Square, Tim Murphy, had long aspired to develop and manufacture better, more efficient pool equipment. Through his many years of experience, Tim developed the Q360+ in-floor cleaning system, which included the Q360+ Actuator Valve. This 6-port valve tied into the variable speed pump, unique at the time, and worked on water flow, not pressure. His continued passion to develop innovative pool equipment is what made Blue Square Manufacturing what it is today. As Blue Square has grown, we now manufacture in-floor cleaning systems, new and replacement LED pool lighting, modern pool drains, and more. As we continue to grow and develop, we will continue to stay true to our founder and manufacture the industry's most innovative pool equipment.

From LED pool & spa lights with patented plug kits to the Eclipse Drain and Q360+ In-Floor cleaning system, Blue Square is known for manufacturing some of the industry's most innovative pool equipment.

An aerial photograph of a swimming pool. The water is a vibrant blue with intricate, swirling patterns of light and shadow, suggesting ripples or a textured surface. The pool's edge is visible in the lower-left corner, featuring a dark, rectangular tile border. A circular drain cover is located on the pool deck near the bottom left. The overall scene is captured from a high angle, looking down into the pool.

IN-FLOOR CLEANING | 1.0

1.1 Performance Jets

360° rotating jets evenly distribute cleaning power and increase the circulation of your pool water. Jets come with three nozzle sizes: 10 gpm, 15 gpm, and 20 gpm.

A night-time photograph of a swimming pool. In the background, a fire pit with three flames is lit. A lounge chair is visible near the pool. In the foreground, a large, dark, curved object, possibly a slide or a piece of equipment, is partially submerged in the water. The pool is illuminated with blue light.

Eclipse Drain Installation Video

A modern outdoor pool and spa area. In the foreground, a hot tub with bubbling water is visible. Behind it is a large swimming pool. To the left, a covered patio area features a bar with a sink and a television mounted on the wall. The patio is supported by dark columns and has a dark, slatted roof. The background shows a well-landscaped yard with various plants and a house in the distance.

CIRCULATION SYSTEM | 3.0

3.0 Circulation System

- Reduces chemical and heat cost, up to 30%, for the life of the pool
- Sweeps dirt & debris from walls and helps to clean steps
- Lengthens the swimming season
- Pushes warm water down and circulates the whole pool
- Smooth pressure changes for longer equipment life
- Utilizes a standard 1.5" wall fitting

WHITE GOODS | 4.0

Q360 Telescoping Bubbler

The Q360 Telescoping Bubbler is designed to add additional beauty to any pool or spa. When the bubbler is extended, the bubbling effect and tranquil sound of falling water can instantly relax and rejuvenate you, adding a sense of peace and tranquility to your outdoor pool environment. When retracted, the bubbler sits flush with your pool or spa floor, steps, benches, or sun decks making it virtually undetectable.

Lite Star RGBW LED Lights

Niche and Cable sold separately

- Angle of the light can be adjusted up to 20 degrees to reduce surface glare and optimize lighting for any depth pool.
- Bright and Efficient Low-Voltage LED Light lasts 10 times longer than traditional incandescent or halogen pool lights.
- UV resistant niche and plaster shield with integrated water stop, multiple conduit ports, and pre-drilled wire tie holes.
- Long-lasting light is easy to replace with our Quick-Connect plug.
- High/Low voltage detection feature
- Vented ports allow for water from the pool to help keep the light cool. Light automatically dims to maintain proper temperature

TRANSFORMERS | 6.0

6.0 Transformers

- Highly efficient EI core – runs cooler, generates less noise, with less voltage loss under load
- Low voltage quick-connect buss bar for ease of installation
- Unique color-coded wire markers for easy maintenance and troubleshooting
- Large 13 & 15V taps (UL 1838 compliant)
- Use of 15V tap extends total cord run for longer LED lifetime
- Marine grade stainless steel body with removable face plate
- Magnetic circuit breaker; auto reset integrated thermalbreaker (in core)
- ETL Listed for both indoor and outdoor use
- 5-year warranty
- 150W or 300W capacity

THE BEST BULB YOU'LL EVER BUY

- Highest Output Bulbs Available
- Reduces Energy Costs by 80% or more
- Lasts up to 50,000 Hours (20 Years)
- Cool White, Warm White, and RGBW Multi-Color
- Easy to Install and Operate
- Long 5-Year Warranty

Vivid 35W LED Pool Bulb

Vivid 20W LED Spa Bulb

Pool Bulb Specifications

Wattage	35
Voltage	12V & 120V
Lumens	2975 (12V) / 3325 (120V)
Life Span	50,000 Hours
Warranty	5 Years

Spa Bulb Specifications

Wattage	20
Voltage	12V & 120V
Lumens	1600 (12V) / 1700 (120V)
Life Span	50,000 Hours
Warranty	5 Years

Blue Square® Low Voltage Transformers Pool and Spa Transformers

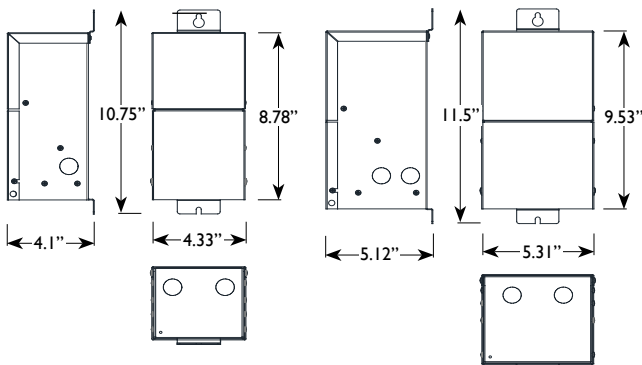

Product Description

Blue Square®'s low-voltage pool and spa transformers are designed for illumination in or around swimming pools, spas, and fountains. Featuring EI cores, these units offer safe, efficient, and quiet operation. Constructed with marine-grade stainless steel enclosures for long-term durability. Each unit includes 13V and 15V wiretaps with clamp-connect terminal blocks for fast, easy, and secure wire connections. Blue Square®'s pool and spa transformers are compatible with most pool automation brands and are also capable of being controlled via toggle-switch. ETL Listed for pool and spa safety standards. Requires hardwired line-voltage(120V) installation (licensed electrician recommended). Backed by Blue Square®'s 5-Year Warranty.

Specifications

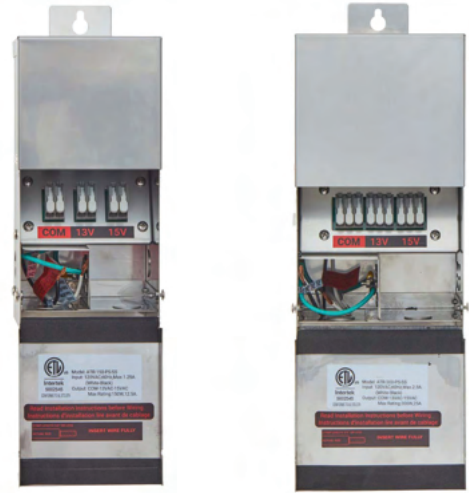

- ▶ **Housing:** Stainless Steel Casing
- ▶ **Power Cord:** Requires hardwired line-voltage(120V) installation (licensed electrician recommended)
- ▶ **Input Voltage:** 120V 60Hz
- ▶ **Voltage Taps:** 13 & 15 VAC
- ▶ **Secondary Circuit Protection:**
 - 150W & 300W: Auto Resettable fuse
- ▶ **Maximum Draw:** Max 150W 12.5A and 300W 25A

Dimensions

VLT600150

VLT600300

Features & Benefits

- ▶ Highly efficient EI core - runs cooler, generates less noise, with less voltage loss under load.
- ▶ Unique color-coded wire markers for easy maintenance and troubleshooting.
- ▶ Large 13 & 15V taps (UL 1838 compliant)
- ▶ 150W or 300W capacity
- ▶ Stainless steel body with removable face plate.
- ▶ Magnetic circuit breaker; auto reset integrated thermal breaker (in core).
- ▶ ETL Listed for both indoor and outdoor use.

Warranty

5 Years
