

The advanced design of the Vivid 360 LED Pool Light results in a compact and stylish underwater light, easily retrofitted into popular existing pool niches as well as for new pool construction. The anti-glare lens ensures increased beam spread and diffused illumination of the pool interior.

The all-plastic construction of the light negates the need for bonding/grounding and ensures safety to pool users. Available in a wide range of LED colors and intensities, Vivid 360 LED Pool Lights are also compatible with popular third-party controllers.

| Model | Description | Color Temp or Wavelength | Lumens | Power Consumption | Incandescent Equivalent |
|---|--|--------------------------|--------|-------------------|-------------------------|
| ALL LIGHTS OPERATE FROM 12V AC ~ 14V AC POWER SUPPLY | | | | | |

VIVID 360 LED Retro-Fit Light

Plug Kit factory-fitted on 14AWG Cable

VIVID PLUG KIT - POOL NICHE

An innovative feature of the Vivid 360 LED Pool Light is its connectivity. The unique and patented waterproof Plug Kit is factory fitted to the supply cord, and allows for simple connection and detachment to the rear of the light. For pool remodels, this means that the light can be safely stored away until the pool renovation is completed—thus protecting it during pool construction. Available cable lengths are 50ft 14AWG, 100 ft 14AWG, 100ft 12AWG, and 150ft 12AWG.
